

**BY AUTHORITY.****WATER NOTICE.**

Owing to the drought and scarcity of water, the residents above Judd street and on the slopes of Punchbowl Hill are requested to collect what water they may require for household purposes between the hours of 5 and 10 o'clock A. M.

ANDREW BROWN,  
Superintendent Honolulu Water Works.  
Honolulu, April 11, 1895. 1311-1f

**WATER NOTICE**

Holders of water privileges, or those paying water rates, are hereby notified that the hours for irrigation purposes are from 7 to 8 o'clock A. M. and 5 to 6 o'clock P. M.

ANDREW BROWN,  
Superintendent of Water Works.  
Approved:  
J. A. King,  
Minister of the Interior.  
Honolulu, March 12, 1895. 1288-1f

**The Daily Bulletin.**

*Pledged to neither Sect nor Party.  
But Established for the Benefit of All.*

WEDNESDAY, MAY 15, 1895.

While the BULLETIN is strictly attending to its own business there are about two thousand white men in this city who appear to be vastly interested in what that business is.

Suppose the damage suits of the political exiles are decided against the Government will they be paid out of the revenue from the sale of bonds issued in settlement of the war debt or by a direct tax on the people?

What with increased taxes to support the Military and Police Departments the average citizen has a cup full.

An exchange says that Colonel Francis V. Greene of the Seventy-first Regiment of New York told the faculty and students of Union College the other day that roads and civilization went hand in hand, and were mutually dependent on each other. In an address delivered to an assemblage of Samoans a few days before his death, Robert Louis Stevenson said the same thing. Another instance of great minds running in the same channel.

If anyone deserves a vacation it is Walter Pomroy, the efficient and popular foreman of the Advertiser. That gentleman has gone to Hawaii for a couple of weeks' rest, and no one needs it worse than he does. That the subscribers of the Advertiser both in Honolulu and on the other islands get their papers regularly without a mail being missed is largely due to Mr. Pomroy and the BULLETIN cheerfully accords him the credit due to him on that account, knowing whereof it speaks.

Referring to the insubordination on the part of some members of the Mounted Patrol the BULLETIN is informed that Nelson in the most profane manner declared in the presence of a half dozen patrolmen his intention of doing up Captain Cook. If this story is true it was the duty of any one of the men who heard the threats to arrest the man without delay. As we take it the police force is established as much to prevent crime as to detect the perpetrators. A little investigation on the part of the officials might bring facts to light that would warrant the dismissal of a half dozen other malcontents.

It is not only among the opponents of the administration here but with supporters that a doubt regarding the calling of a session of the Legislature was felt. Notwithstanding frequent flat denials, the rumor still exists to the effect that the Government itself is lukewarm in the matter of annexation to the United States. As each individual member of the Legislature was nominated only after having pledged himself to support such a measure, it might be embarrassing to the Government to find itself forced to accept the opposite of what it desired.

In this connection we might ask what has become of the native movement toward the political union? The boom seems to have flattened out, and why? Is it because pressure was brought to bear by representations of the Government upon the leaders, and the natives convinced that they are living under a pretty good form of government.

The thousands of dollars collected a couple of years ago to be used in educating the natives into the advantages of living under the Stars and Stripes seems to have been washed, as far as results show.

**A NARROW ESCAPE**

**A Chinese Boy Comes Near Being Run Over By a Tramcar.**

This morning about 10 o'clock, as one of the tramcars had just crossed the King-street bridge, a Chinese boy dragging a toy wagon on which was a bale of leather, crossed directly in front of it. He came nearly being run over, so nearly that the mules knocked him down and smashed his wagon into smithereens, but in so doing the bale of leather came under the wheels of the tram. As a natural result the tram went off the track but fortunately did not turn over. The Chinese boy escaped without injury and when the BULLETIN reported left he was still "cussing his luck" in fluent Chinese.

**A Few Facts Worth Knowing**

It is a fact well known to medical men and to those acquainted with the nature and cause of rheumatic pains that they cannot be cured by any outward application. It is a fact that there are several widely advertised liniments and embrocations which give a certain amount of relief of a more or less temporary nature. It is a fact that "Sequah's Oil" is the very best of all these applications, and gives greater relief than any of them. It acts promptly, effectually, and always gives satisfaction. It is, however, a most important fact that rheumatism in any of its forms depends on the acid state of the blood, and that this acidity of the blood must be removed before a satisfactory cure can be effected. It is a fact worth remembering that "Sequah's Cure" will always remove this acidity, and will therefore always cure. Remember that "Sequah's Cure" and "Sequah's Oil" will always give not only temporary relief, but a sure and permanent cure. You will do well to see and hear Sequah whilst he is amongst you. Sequah speaks each evening on his Chariot in the Union Square at 7-30, with the Hawaiian band in attendance. Sequah also attends the Armory Hall in Beretania street every afternoon between the hours of 2 and 4:30 for the reception of persons wishing to purchase the remedies or undergo the treatment.

**Living Stones of Falkland.**

The most curious specimens of vegetable or plant life in existence are the so-called "living stones" of the Falkland Islands. Those islands are among the most cheerless spots in the world, being constantly subjected to a strong polar wind. In such a climate it is impossible for trees to grow erect, as they do in other countries, but nature has made amends by furnishing a supply of wood in the most curious shape imaginable, says the St. Louis Republic. The visitor to the Falkland sees, scattered here and there, singular-shaped blocks of what appears to be weather-beaten and moss-covered boulders in various sizes. Attempt to turn one of these "boulders" over and you will meet with a surprise, because the supposed stone is actually anchored by roots of great strength; in fact, you will find that you are fooling with one of the native trees. No other country in the world has such a peculiar "forest" growth, and it is said to be next to impossible to work the odd-shaped blocks into fuel, because it is perfectly devoid of "grain," and appears to be nothing but a twisted mass of woody fibers.

The Government band is playing on the Queen's Hospital grounds this afternoon.

**Timely Topics**

May 7, 1895.

Yesterday witnessed one of the quietest elections ever held in Honolulu or elsewhere. It was a good deal like some of the elections in the South American republics where you always vote the government ticket or stay away from the polls. Although only 111 votes were cast, that number was even larger than was expected.

Talking about the election, however, reminds us that we have just received a novelty in the shape of a newly invented can opener, which is simplicity itself. It is called the A. B. C., and we are the only firm handling them. This can opener is different to any other in use. It takes the entire top of the can off with a single turn of the wrist. All you have to do is to lay the machine on the top of the can, strike a little wooden knob similar to those used in opening soda-water bottles and the can opener does the rest. There is no possibility of injuring the hands or losing your temper.

Did we hear anyone call out "rats?" We thought we did, and that brings to our mind another novelty in the shape of a French rat trap. This is a family concern and will accommodate whole families of these pestiferous rodents. Mr. Rat walks into the trap until he reaches a little platform which gives way under his weight and he is caught before he knows where he is, being landed in an entirely different compartment to that which he first entered. Mrs. Rat follows to see what the old man was doing out so late at night and soon joins him. We have caught ten rats in one night in one of these traps. They must be seen to be appreciated.

This warm weather makes one think of ice-cream and an ice-cream freezer that will suit a small family is a desideratum. We have just imported a new style of freezer which cannot fail to commend itself by its usefulness. It is provided with a heavy cap which fits tightly over the receptacle holding the cream, and is so constructed as to require less ice, less salt and less time in freezing. If you want one of these ask for the Gem. It is a gem and we guarantee it.

**The Hawaiian Hardware Co. Ltd.**  
Opposite Spreckels' Block,  
807 FORT STREET.

**IT PROVED :**

to me that good goods and low prices are still appreciated in Honolulu. I therefore intend to give my customers and the public in general another opportunity. I beg to call attention to the special bargains in our line of

**Wool Goods, Cashmere, Flannelettes & Flannels.**

Sale will commence MONDAY, April 22d.

**M. S. LEVY,**  
Fort Street

**Havana Flats**

is the latest novelty in cigars. This is a perfectly flat cigar. The filler is Havana of a very high grade and laid in, like the sheets of a book, in the same way as cigars that cost \$150.00 per thousand. The outside appearance of the cigar conforms to the filler, and is perfectly flat. Those of our cigar customers who have sampled them pronounce the Havana Flats of excellent quality and of unique and attractive shape.

**Havana Cigars**

by reason of their superior quality and name are usually sold at high prices. We have an excellent line of these cigars direct from Havana. While the quality of these cigars is at the top-notch our prices have been scaled down to bring these popular cigars within the reach of all.

**Manila Cigars**

need very little said in their praise, for they are well known here to every smoker. It would be difficult to get a better cigar for the price at which Manilas are sold. We allow no one to undersell us in this line. We compete with any nationality. Remember that when looking for Manila Cigars.

**HOBRON DRUG CO.****FOR EASTER !**

**New Goods ! New Goods !**

Suitings, Serges, Trouserings,  
Linen Duck, Linen Drill, Flannels.
